FEDERAL HEALTH SERVICE OFFERS TO HELP CITY CONDITIONS

Assistant Surgeon General of the United States Public Health Service Says Federal Government Will Help Build Sanitary Toilets.

There was a much better audience at the City Council Chamber Friday night to hear Dr. L. L. Lumsden, Assistant Surgeon General of the United States Public Health Service, than there was on Thursday evening. The Council Chamber was comfortably filled and Dr. Lumsden's talk was greatly enjoyed.

He was specially interested in seeing the water supply of Maysville improved and his department will more than likely lend the city officials their hearty co-operation in clearing up this knotty problem which has been one of Maysville's greatest problems for many years.

Another matter that had Dr. Lumsden's attention was the toilets in that section of the city where there were no sewers and where there will not likely be sewers for some time to come. He suggested that his department would lend the city help in solving this problem too and he also stated that the United States Public Health Service would defray part of the expense of erecting sanitary toilets in those sections of the city.

There were several city officials present at the meeting and it is thought that something definite will come out of the matter and it is more than likely that the attention of City Council will be called to it at the next regular meeting.

PROMINENT EDUCATOR PREACHES HERE SUNDAY

Dr. Ganfield, president of Centre College, Danville, will preach at the First Presbyterian church Sunday and it is certain that there will be large audiences to hear him. Dr. Ganfield is recognized as one of the most brilliant men in the state of Kentucky and one of the state's best speakers.

HILLDALE

A full attendance is desired at the Hilldale Sunday School Sunday afternoon at 2:30. Matter of importance will be discussed. Dr. John Barbour will be present and address the school.

BIG CARNIVAL HERE ALL NEXT WEEK

Rubin and Cherry's Big Shows to Hold Forth on East End Lot For An Entire Week.

The Rubin and Cherry shows which will be here all next week, come highly recommended as a clean moral and refined company.

The 30,000 dollar merry go round is a wonder in itself and everybody will want to crack the whip.

Don't fail to visit the Wild West, a company of cowboys and girls with their bucking bronchoes. The Hawaiian Village in music songs and dances. Robert's Dog and Pony circus. The Fat Peoples Congress and Midget Theater. The educational show, the Flea Circus.

The Old Plantation Show with new songs and old time melodies, and other high class attractions too numerous to mention. This is the largest and last carnival that will be here this season. Don't fail to pay it a visit.

SOLDIERS PLANNING FOR BIG DEMONSTRATION

The Executive Committee of the Mason county soldiers is holding a very important meeting at the Chamber of Commerce this afternoon when final plans will be made for the big parade and demonstration in this city on next Wednesday when the big Whippet tank will be here. The soldiers hope to have one of the largest parades ever seen in Maysville and every returned Mason county soldier is urged to attend.

COLD WEATHER AFFECTS BOAT RIDE

Because of the very cold weather on Friday evening there was not a very large crowd on the river excursion given out of this port by the palatial steamer Homer Smith. It is understood that the management of the Smith hope to come back to Maysville for other excursions before the season is finally closed.

MANY ATTEND ANNUAL MUSICAL ENTERTAINMENT

The annual musical entertainment given in the High School Friday evening was attended by a large number of people. The program was especially attractive and well rendered. All of the students did themselves proud and reflected much credit upon their instructor, Miss Williams.

THIRD WARD FIRST PRECINCT IN COUNTY TO REACH ITS QUOTA

Dr. A. O. Taylor's Committee Does Much Work in Sale of Victory Notes and Wins Distinction as First Precinct in County To Reach Goal.

Dr. A. O. Taylor, chairman of the Victory Loan committee for the Third ward, announces that his precinct has sold more than its quota already and this announcement is the first made by any precinct chairman in the entire county and gives to the Third ward of the city of Maysville the distinction of being the first precinct in the entire county to reach their apportionment.

The apportionment for the Third ward was \$40,000 and Dr. Taylor announced this morning the sale of \$16,400 worth of the notes which gives the precinct an oversubscription of \$6,400. Oversubscriptions in this loan will not be accepted but precinct oversubscriptions will be used to bring up the county's total and figuring on this basis the county Executive Committee has offered as rewards the seven German Helmets to the seven county precincts which oversubscribe the greatest per cent and help the most to bring up the county's total by helping out the weaker precincts which may not reach their quota.

The Third ward committee this time is composed of workers who have been through the other four wards and who have always come out with colors flying. Dr. Taylor and his committee of faithful men and women are to be congratulated upon his accomplishment.

COUNTY TEACHERS ENDORSE PROF. W. P. KING

At the weekly meeting of the Mason county school teachers held at noon today two resolutions were offered and adopted. One was a resolution expressing the sympathy of the teachers to their County Superintendent upon the recent death of his brother, and the other was a resolution endorsing the candidacy of Prof. W. P. King, of Newport, for the Democratic nomination for State Superintendent of Public Instruction.

STATE EXPERTS ADDRESS BREEDERS HERE

Dr. Peterman, State Veterinarian, and Mr. O. F. Floyd, of the Bureau of Market, State Experiment Station, of Lexington, were in the city today and addressed a joint meeting of the Short Horn Breeders' Association and the Poland China Swine Breeders who expect to organize an association immediately.

Mr. and Mrs. Frank Keith and family are moving from the property in East Second street recently purchased by Mr. T. P. Boyce to Forest avenue. Mr. and Mrs. Boyce will move to their newly purchased home the first of next week.

NEGRO WOMAN ROBS CHINAMAN OF LARGE SUM AT NOON TODAY

Woman Working at Chinese Laundry Breaks Open Strong Box Using Hammer and Spike and Gets Away With \$148 of Chinaman's Savings.

At noon today a negro woman who for the past week has been working at Wing Sing's Chinese Laundry at Third and Limestone streets, stole \$148 in money from the Chinaman and made her get away on a street car taking also four large blankets from off the laundryman's beds in the rear of his laundry.

The woman, who gave her name as Emma Wilson, is said to have come to Maysville with the Barkoot Carnival two weeks ago. She told neighbors that her home was in Chicago. While Sing was engaged in getting his dinner in an adjoining room at noon today, the negro woman, who was ironing in the back room of the building, slipped to his sleeping quarters and took from a shelf over his bed a "strong box" which was locked with a large pad lock. This box she carried to the attic in the building and there by means of a large spike and a hammer, she forced the lock off the box and took from it \$148 in money which Sing had been saving for some time. Ten dollars in the box was over looked.

When interviewed this afternoon, Sing said that the negro woman carried up four large blankets and placed them in a basket and then took a street car going East at Third and Limestone streets. It was some time after the woman had left the laundry that the Chinaman missed his "strong box" and after searching for some time he found it in the attic badly battered. He at once reported the matter to his friend, Rev. A. F. Stahl, who called in the police and they arrested the woman at the C. & O. depot about 4 o'clock.

SLOAN PLEADS GUILTY, FINE IS SUSPENDED

In the local Police Court this afternoon John Sloan arrested on a charge of bootlegging, entered a plea of guilty to the charge and was fined the lowest fine of fifty dollars and costs and ten days in jail. Judge Whitaker then suspended the fine and gave Sloan credit for the eight days he has already been in jail on the ten day jail sentence. Judge Whitaker told Sloan that at 6 o'clock Sunday evening he would have the court house bell sounded and he could walk forth. This arrangement was reached by agreement of lawyers and officials and upon Sloan's promise to give the officers no more trouble.

CLOVER SPELLS HONEY

Reports from all portions of the State indicate a big crop of sweet clover, white clover and alsike clover.

This means a big honey flow which can be changed into clear, luscious honey if the colonies of bees are vigorous. The farm home which has a few hives and the beekeeper who has many colonies, should secure Circular No. 69 "Elements of Beekeeping" so as to be ready for the harvest of sweet. County Agent Kirk has a supply of these circulars.

TO YOUR INTEREST

Those wanting Fruit Trees, etc., will do well to send us their orders, or better, come in, in the next few days or so, and suit themselves. MAYSVILLE NURSERY STOCK CO. 25-26 Headquarters near Postoffice.

AMMUNITION IS NOW FURNISHED TANKS; SHAM BATTLES SURE

Whippet Tank Coming to Maysville Next Wednesday Will Have Plenty of Ammunition—Big Demonstration Is Arranged.

Bang! And enough more bangs to waken up any man's country side! The ammunition so long delayed has been forwarded to every tank on the road and each tank will have enough of it to put on a real show.

The tanks have overcome their early difficulties and most of them are right on their schedule. The others are fast catching up.

On the turrets of these crawlers machine guns are mounted and the possibilities for sham battles, attacks and other stunts are increased 100 fold with the ammunition.

The tank shows have been thrilling even without the ammunition. Now that they can bark as well as rattle it is certain that they will put on a big show.

So far these rattlers have performed every conceivable stunt which a local committee could ask of them, from knocking down fences and barricades to demolishing little of last year's fivers.

Arrangements are now about completed for the big tank demonstration here on next Wednesday. The Whippet will do all sorts of stunts about the city and a big parade in which the tank will take a part will be put on by the returned soldiers. The Carnival band will make the music.

PASTIME CLOSED FIRST FOUR DAYS OF NEXT WEEK

The Pastime will be dark Monday, Tuesday, Wednesday and Thursday of next week. Opening Friday, May 2nd, with the Pearl White serial, "The Lightning Raider."

Coming May 5th, 6th and 7th. An attraction extraordinary "The Heart of Humanity" featuring Dorothy Phillips.

JOHN RAYMOND HUFF DEAD

John Raymond Huff, twelve year old son of Mr. and Mrs. John F. Huff, of the East end, who died at the home of the parents Friday, will be buried in the Maysville cemetery Sunday afternoon. Funeral from the home at 2 o'clock. Influenza was the direct cause of the death although the boy had been an invalid for years.

RUPP-GRAY

Prominent Young Maysville Couple Quietly Married in Lexington at Noon Today—Will Make Maysville Their Home.

The many friends of Miss Alpha Rupp and Mr. George Gray, of this city, will be surprised to learn that they were quietly married at the home of the groom's sister in Lexington at noon today. They were accompanied to Lexington this morning by Mr. and Mrs. Thomas Cook.

The bride, whose home is at Harrison, Ohio, has been a resident of Maysville for the past six or seven years following her profession as a graduate nurse here and during her residence in Maysville she has made many warm friends by her many splendid traits of character.

The groom is one of the city's most prominent young tobacco men. He has been connected with the Maysville tobacco market since near its beginning, being a buyer for his brother's firm, Thomas H. Gray.

Following a short wedding trip Mr. and Mrs. Gray will return to Maysville to make this city their home. Their many local friends extend hearty congratulations.

REV. HARROP TO SPEAK MONDAY

Rev. W. S. Peters, pastor of the Third M. E. Church, received word Friday that Rev. F. W. Harrop of Harlan, Ky., will be here Monday and in the evening will give a series of stereoscopic views of the mountain section of our state. This is a part of the great work to be undertaken by the Centenary promoters. Recently views of the work to be undertaken throughout the United States were shown in this church. Many expressed a desire to see conditions in our own state, this is their opportunity.

No preacher in Kentucky is better acquainted with conditions throughout the mountain section of the state than Rev. Harrop. For several years he has been the successful pastor at Harlan, doing a wonderful work in that thriving mining city and community. In his work as field agent for Union College he has visited about every cross road and village in South Eastern Kentucky. Maysville people are always delighted to hear Rev. Harrop and he will no doubt be greeted by a large audience on Monday evening.

HAMILTON-SOLOMON

Mr. Charles Solomon aged 23, and Miss Mary Hamilton aged 33, both of Cincinnati, were married this afternoon at the County Clerk's office by County Judge H. P. Funnell.

ANGEL'S INTEREST IS IN SALVATION OF ALL THE LOST SOULS

Baptist Church Pastor Delivers Scholarly Discourse on "Things Angels Desire to Look Into"—Services to Be Held Tonight.

Considering the many other attractions in the city Friday evening, there was a very good sized audience at the First Baptist church to hear Dr. B. B. Bailey's sermon on "Things Angels Desire to Look Into." From the scriptures he brought a message founded on the fact that the angels of heaven were very much interested in the saving of the lost and that they were very much interested in looking into the plan of salvation.

The pastor explained this salvation as a hope witnessed by the resurrection of Jesus Christ from the dead.

The musical part of Friday's program was very interesting. Mrs. H. C. Barnes and Mr. Robert A. Cochran sang beautiful solos and the chorus choir rendered a special number.

There will be services again tonight. Because there are no afternoon services, it was thought right and proper that services be held on Saturday evening and this evening Dr. Bailey will speak on the subject, "The Enthusiasm Worth While."

The entire public is cordially invited to attend all of these services which begin promptly at 7:30 o'clock.

There will be services Sunday both morning and evening. The morning subject will be: "God Requireth The Past" and the evening subject will be: "The Heartlessness of Sin."

CITY PEOPLE AGAIN PRESENT ARGUMENTS

Again today there were quite a number of Maysville people appearing before the County Board of Tax Supervisors who are meeting at the Tax Commissioner's office to hear complaints on a proposed increase of approximately 8 per cent, on all of the property in the city. It is understood that the present board is making little changes in valuation except the addition of this flat per cent.

SE. MAN BROTHERS RETURN

Messrs. Frank and Walter Seaman, of this county, brothers who have been in France for several months, arrived in Maysville this morning on their way to their home having been finally discharged. These men left here with Fred Diener in the draft were in the battle with him when he was wounded.

MODERN LAUNDRY AGENCY

You can leave your laundry here and get it any time during business hours day or night.

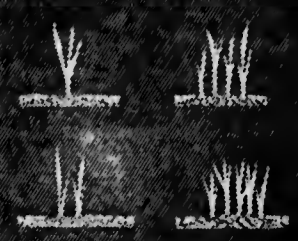

This is an advantage to our country friends who can't get in town during the day.

THE NATION'S NEED—MORE CORN

AVERAGE PLANTING
WON'T GET IT

ACCURATE PLANTING
WILL

Average Planting

Average is hit-and-miss planting—under-planting some hills and over-planting others. Under-planted hills produce only one or two ears where they should produce three good ears. Over-planted hills produce barren stalks, bunnies and possibly a couple of fair ears.

Accurate Planting

Accurate Planting means the desired number of kernels in every hill; that number depending upon the soil's fertility. It means that each hill is called upon to produce its proportionate part of the yield. It eliminates under- or over-planting.

Accurate planting produces the biggest yield.

We can sell you the planter that results in more corn—the planter that gives the same accuracy that you would get by counting out the kernels and dropping them by hand. Come in and inspect this planter—ask for the

JOHN DEERE 999 Corn Planter

The Accurate, Variable-Drop Planter equipped with Natural-Cell Fill, Edge-Delivery Seed Plates. Each kernel enters the cell in the seed plate in a natural position. The sloping hopper bottom feeds the corn to the cells whether the hopper is full or nearly empty. It is the most simple, yet most effective, planting mechanism ever used on a planter.

You control the number of kernels per hill. Without changing seed plates or even stopping the team, you can plant two, three or four kernels in the hill, whichever number you decide the land will sustain. Merely shifting the foot lever varies the number dropped, and you can change the drop as frequently as you desire. The variable-drop mechanism of this planter is just

as perfect and well protected as the gears on the best automobile. You can also drill corn with the John Deere Planter. Change from hilling to drilling, or back to hilling, is made instantly by means of a foot drop lever. Not necessary to get off the seat or stop the team. The 999 Planter gives nine different drilling distances without changing seed plates.

Yours for Good Old Corn Pones **MIKE BROWN** Square Deal Man of Square Deal Square

THE HOME OF QUALITY CLOTHES

HELP PUT THE VICTORY LOAN OVER

Spring is Here--Absolutely

And this spring, entering with the new prosperity of peace, bring with it a sense of broad trust, of happiness untrammelled by the horrors of the world-war. War-time considerations are past; and behold:

—MANY NEW SUIT MODELS ARE SHOWN.
—THE WAIST-SEAM COAT STRIKES A CHORD OF EXTREMELY POPULAR FANCY.
—SPRING IS THE REAL "DRESS UP" SEASON.

The new "after war" purchases are now being unpacked, and surely one of these packing-cases contains your suit.

D. Hechinger & Co.
CLOTHIERS

SATURDAY WILL BE RED LETTER DAY! DOUBLE STAMPS

IT'S "VICTORY LOAN" DAY AT OUR STORE.

For every dollar we take in on Saturday we shall buy four times that amount or more of "VICTORY BONDS", that is to say for every \$100 we take in Saturday we shall subscribe for \$400 or more of VICTORY BONDS.

This is the most important of all Liberty Loans. We went into win and win quickly. We won. Now we've got to pay our bills. It means we must see the thing through. Uncle Sam's debt is your debt and my debt. Let's put over the Victory Loan with a bang and square things up.

If you feel that you cannot afford to take a Victory Bond you will have the satisfaction of knowing that every dollar you spend with us on Saturday will be invested with Uncle Sam in Victory Liberty Bonds.

The Big Store is filled to overflowing with everything that a good Dry Goods Store should carry. If you do all your shopping on Saturday at our store you will go home with no regrets.

PROTECTIVE TARIFF LAW
CERTAIN OF ENACTMENT

Chairman Fordney of Ways and Means Urges It as Way to Industrial Expansion

By Nell Smith

Washington.—In order to prepare the United States for a greater industrial revival than that following the Spanish War, when the Dingley law was effective, Representative Joseph W. Fordney, of Michigan, chairman-elect of the Ways and Means Committee, favors the passage by the House during the summer of a protective tariff measure which will impose high duties on foreign goods and save American labor and living standards. "There is now every indication, every reason to believe," said Mr. Fordney to your correspondent, "that the next few years may witness a commercial struggle among the different nations, a struggle to regain old markets and to find new markets for export trade, and that the success of American industries and the welfare of the American people will hinge, in no small degree, on our tariff laws. This is a time, it seems to me, that calls for sane, sensible businesslike action. No one man or party is greater than the nation, and selfishness and partisanship must not stand in the way of good government. But the nature of tariff changes and the time for such legislation is a matter that the majority should and will decide.

"During the war the demand for all kinds of goods, as a general rule, far exceeded the supply. Prices went skyward. A man with most anything to sell could sell it at a profit. A manufacturer, no matter how wasteful his methods, could make money. There is now, however, reason to believe we are approaching a period when supply may exceed demand when the nation or nations with goods to sell will meet with difficulty in finding a ready market. We should not forget our experimenting with low tariff legislation just prior to the war, when men out of employment became a menacing problem and business stagnation was everywhere in evidence. We should benefit by experience and prepare the country to properly meet conditions soon to confront us.

"Generally speaking, the cost of production, due mostly to higher wages, of everything on the farm and in the factory is higher in America than in Europe and Asia. It is the high standard of living in America, guaranteed by child labor laws, factory inspection laws, laws regarding hours of labor, minimum wages and employer's liability and other laws, which, while they benefit labor, materially add to the cost of production. To have these beneficial laws and abide by them and then attempt to compete in an open market with the products of poorly paid foreign labor is ridiculous. Hence the Republicans at the coming session will act."

Victory Verity

The remarkable thing, however, is that to double the time will more than double the accumulation. Money sticks to money and breeds more money. Your \$3 weekly saved for ten years will produce over \$1,276 at four per cent. If you know how to multiply by two you can easily figure out for yourself how much \$4 weekly will make. Put it in Victory Bonds.

—BOLTON HALL, Author of "Thrill."

OUR COLORED CITIZENS

The Congo River Tabernacle Lodge No. 80 met Wednesday night, April 23, and installed the following officers for the ensuing year: Mrs. Sude Morton, H. P.; Mrs. Lucy Brookins, V. H. P.; Miss Maria J. Clergy and Loan
Join In Fight On
Hunger and Hatred

HUNGER and hatred are tools in the hands of the agitator. The woe he has wrought with them stares at us from Europe and the harm he can work if allowed to use them unrestrained is beyond computation.

The United States Treasury Department believes that one of the most capable agencies to destroy the second of these tools is the church. The destroyer of the first tool, of course, is obvious—food.

And since one-fifth of the Victory Liberty Loan proceeds will go to pay the bounty for the wheat crop which is to feed the world, the Treasury Department has endeavored to merge the two agencies for the destruction of the two tools. It is appealing particularly to the church and the clergy to put forth every effort in the Victory Liberty Loan which begins April 21 and to preach, pray and labor for the loan's success.

Easter Sunday, the day before the opening of the loan campaign, offers an unusual opportunity for a sermon portraying the analogy between the resurrection of Christ and the resurrection which the world must make from the chaos of the present. Many ministers will avail themselves of this.

And then the churches have been asked to dedicate Sunday, May 4, to the Victory Loan. They are asked to base the services in the church and in the Sunday schools on that day to the success of the loan.

The bolshevik influences which have spread disbelief and atheism in Europe must be met boldly and fought by every clergyman if he is to comply

IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Maysville Homes.

Hard to do housework with an aching back. Brings you hours of misery at leisure or at work.

If women only knew the cause—that Backache pains often come from weak kidneys.

"Would save much needless woe."

Doan's Kidney Pills are for weak kidneys.

Read what a Maysville citizen says: "Mrs. R. W. Lauderback, W. Second Street, says: 'Two years ago I was suffering with kidney trouble and had been for a long time. I was nervous and dizzy and had severe headaches. My kidneys were too frequent in action and annoyed me greatly. I had a dull ache across the small of my back and my back was so lame at times that I could hardly bend one way or the other. Some one advised me to use Doan's Kidney Pills and I got a box at Wood & Son's Drug Store. They helped me at once and consumed use entirely cured me of the trouble.' Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Lauderback had. Foster-Milburn Co., Mfgs., Buffalo, N. Y."

Points in the
Moline's Favor

There are many points in the MOLINE'S favor when the question of what Farm Tractor to buy comes up. To put them all in print would make a long, long story—but to make a long story short—

POINT 1—The MOLINE is the ONLY tractor with electric lights and self-starter. You don't have to quit important plowing or other work just because the sun goes down. Just turn on the lights and keep right on. The MOLINE will work 24 hours a day for you. Never mind the weather. If it rains on Monday, you can do 2 days' work on Tuesday to make up for it.

POINT 2—The MOLINE is the ONLY tractor that cultivates the seed in the soil.

POINT 3—The MOLINE is the ONLY tractor that reverses and goes around a stump or rock. You drive the MOLINE same as an automobile. Drive backward as well as forward.

POINT 4—The MOLINE is the ONLY tractor that cultivates two rows at a time.

POINT 5—The MOLINE is the ONLY tractor that can be turned around in a 16-foot circle and can be put in a small-sized shed.

POINT 6—The MOLINE is the ONLY tractor that has a device to lock the differential and give perfect traction in soft ground.

POINT 7—The MOLINE is the ONLY tractor that will start and finish a field without a horse.

There are SEVEN points—"one for every day in the week." For more "points" or a demonstration, phone, see or write

KENTUCKY SALES OF VICTORY BONDS REPORTED SLOW

Kentucky Sales Slow in St. Louis
Area—Cleveland District Far
Down the Line.

Washington, April 25—Nearly \$150,000,000 additional Victory Loan subscriptions were reported to National Loan Headquarters Thursday and raised the total pledges so far to approximately \$100,000,000.

St. Louis district, which takes in Louisville, was fourth, with New York, Boston and Chicago districts ahead of it. Larger districts, like Philadelphia and Cleveland, are far behind Louisville.

Sales were reported moving more slowly in the Kentucky area than in any other part of the district, only one-sixth of that section's quota being raised.

The exact total was \$396,496,000, and was distributed among the twelve districts as follows: Boston, \$61,047,050; New York, \$124,000,000; Philadelphia, \$28,422,100; Cleveland, \$21,835,200; Richmond, \$18,959,000; Atlanta, \$16,660,700; Chicago, \$6,466,268,950; St. Louis, \$40,918,100; Minneapolis, \$13,138,100; Kansas City, \$9,027,450; Dallas, \$1,737,650; San Francisco, \$7,181,150.

Differences appear to be developing between the loan campaign managers of Iowa and Michigan, the two States which have subscribed their quotas, over the question of which was first to achieve this record. The Treasury expressed no opinion as to which should receive first honors.

The official summary of the campaign said, however, that a message from C. C. McVicker, the Iowa sales director, received at 10:36 a. m. today, said that Iowa passed its quota yesterday afternoon at 3:30 p. m.

A telegram from F. R. Menton, of the Michigan committee, also received today, said that Michigan had passed its quota, but gave no time of passing. Workers in each state are continuing to roll up subscriptions.

The Cleveland district continued tonight to lead all other districts in the number of committees reaching their quota, having 115. Toledo expected to obtain its quota by Friday, and Cincinnati reported that it had half.

NONE SO SATISFACTORY AS MINORCAS; REAL BEAUTY IS FOUND IN THEM

(By Thos. G. Samuels, Manager of the Prospect Farms)

My dear Mr. DeLancey:

I have been in the poultry business for about twenty years and have bred many of the various varieties. During these years, however, I have not as yet found any birds quite so satisfactory as the Black Minorcas, both Single and Rose Comb. They have been in public favor for many years having attained and established a reputation through their good qualities.

Perhaps the first thing which attracted me to Black Minorcas was their appearance. They are good enough looking to catch the eye of any person. One is not only attracted by their wonderful green and black color combination, set off by their white lobes, red comb and wattles, and black eyes, but also by their proud, stately and dignified carriage. Mingled with these traits there is a sort of gentleness to be found in the Black Minorcas. Being not at all flighty, they do, as a rule, make fine pets.

It is much easier to prepare Black Minorcas for the Poultry Show than most any other variety. Being dark in color they do not have to be washed like the white birds. On the whole they are not much trouble to condition for the poultry show.

In the show room, the Black Minorcas are one of the leading varieties. At most of the best shows, they are one of the largest classes. The beauty in any poultry show is always found in the Minorcas also. The male Minorca birds are rather large and cannot be put in any sort of a show cage. Many poultry associations have recognized this fact and have donated double-sized cages for their male Minorca birds. These cages, in my mind, are quite essential. They give an added attraction to the Minorca side because the birds get a chance to make a good appearance. Since the Black Minorcas do make an especially good appearance, their section of the show room is one of the most popular. Visitors always admire them.

The next attraction, besides the birds themselves, are their eggs. Everybody knows about the Black Minorcas large white eggs. It is not unusual for a dozen of them to weigh 35 ounces. Here again, the Black Minorcas always capture first honors in the show room. How often is a dozen of well chosen Minorcas eggs awarded anything less than a blue ribbon? I know of a rather recent case where two dozen of Black Minorcas eggs being put in competition with one hundred and thirty-two other dozen, were given first and second prizes. I know of another case still, where in competition with 94 dozen of eggs the Minorcas dozen victoriously won the blue. It is not only in the show room where Minorcas eggs have a leading place. The ladies will always say that they prefer them for cooking purposes because of their size. Customers who use them always ask the poultryman for Minorcas eggs in preference to the others.

For use as a table fowl, the Minorcas again excel. Some people have a grudge against the bird because it has a white skin and dark pin feathers. Don't the other varieties of poultry also have pin feathers? Yes, but they are white and you don't see them when preparing the fowl for the table. Therefore it is better for the pin feathers to be black so that they can be taken out. The texture and flavor of the Minorca meat is of the very best. It is of a fine quality and tastes slightly like the meat of a game fowl. The size and length of the carcass also makes it suitable for table use. I prefer the Minorca to the turkey and have often served it on my table in the place of the latter. Its meat is not so dry and has a better taste than that of the turkey. As for as Minorcas and turkeys are concerned, in my mind, the former take first place.

Therefore, in summing up, let me say that Black Minorcas are most satisfactory in every way and have no superior. If you don't agree with me send a few Minorcas and find out for yourself.—Poultry Press.

OWN-YOUR-OWN-HOME COM. MITTEES TO HAVE BENEFIT OF HOUSING CORPORA- TION'S EXPERIENCE

Plans for dwellings, prepared by the U. S. Housing Corporation for various Government projects during wartime, are to be made available for general public use by the Own-Your-Own-Home Section, Information and Education Service, U. S. Department of Labor.

Several types of houses have been selected as most artistic as well as most practicable and the plans for these will be given to Own-Your-Own-Home Committees, which are now carrying on campaigns in forty cities, so that estimates may be made on them. It is explained that the purpose is not to interfere in any way with the work of local architects, by thus providing Government plans, but it is expected that when the estimates in widely separated States are compiled the information will be of value to prospective home owners, while it will afford comparisons of the varying cost of construction in many parts of the United States.

Since the Own-Your-Own-Home campaign was started a few weeks ago the U. S. Department of Labor has received assurances of cooperation from Chambers of Commerce, civic associations, women's clubs, and organizations of many sorts. Requests that local campaigns be begun without delay have been sent this week to 400 cities. Letters have been addressed to mayors, labor organizations and the clergy, as well as to the clubs and other associations that have expressed willingness to aid the campaign, undertaken to provide employment for returning soldiers and to hasten the revival of business.

While the campaign was started primarily to furnish buffer employment to the men of the demobilizing army, the number of letters received by the Department from soldiers who ask advice about how to proceed in obtaining homes of their own proves that the campaign has won the boys in khaki more than a temporary interest and contradicts the idea that military service breeds a distaste for settling down in a permanent abiding place. The Own-Your-Own-Home campaign, so far, has seemed to show that war instead of inspiring wanderlust has made the Americans who served in it more anxious than ever before to live in houses that actually belong to them.

HEAVY DEW

"I'd like to have no squeak aken out of these shoes, Mr. Clerk, if you can find a remedy."
"Sure. Notice it worse" in wet weather, I suppose?"
"Yes, the dew always seems thickest on the porch about two o'clock in the morning."

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there."

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.
This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.
I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.
Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

Notice to Contractors!

Sealed bids will be received at the office of the Clerk of Mason County at the Court House, Maysville, Ky., until 10 o'clock a. m., May 2, 1919, by the Fiscal Court of Mason County for the improvement of Maysville and Mt. Olivet road No. 78C1 from a point at the junction of the Lexington Pike to the Robertson County Line, a distance of approximately nine (9) miles.

The improvement will consist of shaping the road, constructing necessary drainage structures, excavation, grubbing and resurfacing with approximately six (6) inches of loose metal spread to nine (9) feet and feathered.

This work proposed to be done involves approximately:
3040.4 Cu. Yd.Excavation
4990.9 Cu. Yd.Borrow
364.75 100 Ft. Grader Work (both sides)

12054.0 TonsCrushed Stone
27695.0 Sq. Yd.Shaping and Scarifying.
789.19 Cu. Yd.Concrete—Class "A"
604.0 Cu. Yd.Concrete—Class "B"
6.61 Cu. Yd.Concrete—Class "D"
51087.0 Lbs.Reinforcing Steel
1280.0 Lbs.18" C. G. Pipe
184.0 Lbs.24" C. G. Pipe
36.0 Number.Trees and Stumps
160.0 Lbs.Hedge—removing
Bridges at Station 173 and Station 227 are included in the above estimate. These bridges comprise the following quantities but may not be built at this time:
143.5 Cu. Yd.Concrete—Class "A"
604.0 Cu. Yd.Concrete—Class "B"
6.61 Cu. Yd.Concrete—Class "D"
29346.0 Lbs.Reinforcing Steel
Bids will be accepted for the whole work or separate bids on Concrete Work and Culvert Pipe will be accepted.

Plans may be seen and instructions to bidder, specifications and forms of proposed work secured at the office of the County Clerk at Maysville, Ky., and at the office of the Department of Public Roads, Old Capitol Building, Frankfort, Ky.

A certified check payable to the Sheriff of Mason County equal in round numbers to 5% of the bid must accompany each proposal.
The right to reject any and all bids is reserved.

BUSINESS EXPERT WILL SPEAK HERE AT EARLY DATE

Representative of the United States Chamber of Commerce Will Deliver Lecture Here on May 5th.

Sometime ago the Secretary of the Ashland Chamber of Commerce in a communication with the local organization stated that they could secure Mr. Colvin B. Brown of the United States Chamber of Commerce for a lecture, providing an itinerary could be worked out in this section of the country.

The matter was taken up with the Board of Directors and the Secretary was instructed to extend an invitation to Mr. Brown to pay us a visit.

A communication was received Friday from the Ashland Secretary stating that an itinerary had been worked out for Mr. Brown in this section of the country and that Monday evening May 5th, had been allotted to Maysville.

Mr. Colvin B. Brown is Chief of the Organization Service Bureau of the Chamber of Commerce of the United States of America and is considered one of the country's best vested authorities on Community Development through the Chamber of Commerce.

The Organization Service Bureau is a clearing house for the solving of Commercial problems that come to the attention of the Chamber of Commerce of the United States of America. Mr. Brown has conducted numerous surveys on Commercial Organization problems, securing his information from the various Commercial Organizations throughout the United States.

The surveys have been on subjects such as Credit Rating, Co-ordination of Efforts Between the Man of the Country and City, Traffic Bureaus, Community Advertising and Publicity, Maintenance, Organization Structure and Methods, and the Activities of Commercial Organizations.

At a meeting of the Board of Directors Friday afternoon, the communication was presented and the matter of the most desirable place for Mr. Brown's address was freely discussed. It was finally decided to hold the meeting in the Court House and extend an invitation to all the citizens to hear Mr. Brown on "The Greater Maysville."

FAYETTE COUNTY GIVEN HEARING BY THE STATE BOARD

Suit on Account of Proposed Tax Assessment Increase Is Further Away Say the Members.

Lexington, Ky., April 26—For the first time, Fayette county's representatives to the State Tax Commission were given a thorough hearing when Major E. B. Ellis, head of the Board of Supervisors; C. B. Nichols, a member of the board and George C. Webb, attorney went to Frankfort yesterday for a consultation with the commission and Governor A. O. Stanley.

The conference lasted for more than two hours, and was held in the capitol, Governor A. O. Stanley, James Scott, chairman of the commission; Robert Green and Ben Ringo, members of the commission, meeting with the delegation from this county.

No definite agreement as just what settlement will be effected between the commission and the county was reached, although it was stated by one member of the delegation, which returned last night that court action restraining the commission and attacking the law under which they were operating appeared to be further away than it has been at any other time since the dissolution between the commission and the county began.

Both the commission and the delegation presented their sides of the situation, which was thoroughly discussed. On other occasions that a delegation has gone to Frankfort from this county to protest against actions of the commission they have never been thoroughly heard the commission occupying most of the time presenting figures and making statements.

Sometime ago, representatives from several counties of the State, including Bourbon, Montgomery, Scott, Mason Clark and Kenton, met here and discussed what action would be taken against the commission should it attempt to enforce the raises in assessments it had ordered in these counties.

It was proposed during this conference that a fight be made on the Tax Commission, both in the Federal District Court and the Court of Appeals. This in all probability would have been the method by which the counties would have proceeded. The conference of yesterday to some extent indicates that this county and the commission may adjust differences without legal action.

CARPENTER WINS

In the case of Gault vs. Carpenter, a forcible detainer suit, appealed from County Court, a jury in the Mason Circuit Court this afternoon found for Carpenter, the tenant, sustaining the lower court.

BOY BURNED

The six year old son of Mr. and Mrs. George Scott, of Forest avenue, was rather painfully burned this morning in the bath room of their home when his clothing took fire from an open gas stove.

Mrs. Taylor Frakes of Maysville, and Mrs. Ada Yazell and son, Charles William, of Orangeburg returned Friday night after a visit with Rev. Paul Reikon and Solder and Sallora Club at Newport, Ky.

Farmers report the cold weather doing much damage to the fruit crop and early vegetables.

THE OUTLOOK FOR TOBACCO IS MUCH MORE FAVORABLE

Letter Issued by State Department of Markets on Tobacco Is Very Encouraging.

Following dire predictions of ten cent tobacco and a gutted market, it is indeed encouraging to Mason county farmers to read the following letter received by County Agent Klrk from the Department of Markets at the Experiment Station. This letter is sent out after a careful survey of conditions both domestic and foreign, and reveals the true situation better than any prior forecast. This should not be taken as a bid for overproduction, but as an analysis of factors bearing on next year's price.

The condition of the closing market for tobacco 1918-19 after a season of unprecedented high prices and preceding a season of unusual promise of a large crop of tobacco for 1919-20 has given rise to considerable inquiry among growers and buyers alike as to the probable situation in the new crop. A careful investigation of domestic and foreign markets conducted by the Department of Markets of the University of Kentucky has elicited considerable information on the subject which should be of value to the tobacco industry and this market news bulletin is accordingly issued for that purpose.

The sharp decline in the end of the season's market seems to have been caused by several factors among which were inability to further finance a high price crop and the fact that many buyers had purchased either the entire amount required by them or such an amount of tobacco as the limit of their credit would stand. Because of this several of the buyers left the market and others attended it only in a disinterested fashion and price of loose leaf, therefore, declined rapidly to a low point of stabilization where it remained for the balance of the season.

DOMESTIC CONDITIONS. It appears that the handlers of tobacco in the United States are very well stocked with the weed and in many cases overstocked, carrying large quantities on partial payment for foreign order. Every storage house in the Eastern part of the United States capable of storing tobacco is filled to capacity. This condition is aggravated by the fact that transoceanic shipping available for tobacco transportation has been exceedingly short and in many cases almost entirely lacking. In spite of the fact that millions of dollars worth of tobacco are already sold to foreign purchasers the markets are stagnant in the face of inability to ship. This does not say that there is too much tobacco in America for present demands for the reverse is true but the market is stagnated on account of the obstruction in commerce.

FOREIGN CONDITIONS. Conditions in foreign countries are such that some who have lately returned from investigations in Europe described that continent as a tobacco vacuum due to the fact that there is scarcely any tobacco to be had outside the armies of occupation. The present immediate needs of Europe are approximately 500,000,000 lbs. of American tobacco and this will only supply the immediate needs of manufacturers and dealers and should soon be followed by consignments of 400,000,000 lbs. for the early current needs of the ensuing year.

FOREIGN SUPPLIES. Europe is suffering not only from a shortage of imports but also from one of production. Turkish tobacco has practically disappeared from the world's market on account of the disruption of that country and China is supplying an inferior grade which is being used in Turkish cigarette manufacture. Thus we find Europe in a position to take immense supplies of tobacco but the greatest potential market for America at the present time, one capable of immense expansion, is that of China.

THE OUTLOOK FOR NEXT YEAR'S CROP. Taking into consideration the abnormal condition in the world's tobacco market the outlook for next year's crop appears favorable. This is true even when we consider that America from present indications will produce several millions of pounds more than ever before in its history. The present increase in tobacco acreage is most marked in North Carolina, South Carolina and Georgia, but its increase will not effect to any great degree the total percentage of increase in the world's crop.

The outlook for Burley tobacco seems quite favorable owing to the fact that Burley is becoming more and more popular in foreign countries. While the market will doubtless be

LEXINGTON DISTRICT NOW MAKING GOOD SHOWING IN DRIVE

Eastern Part of Kentucky Has Already Subscribed For More Than Four Million Dollars Worth of Victory Loan Notes in First Week.

Lexington, Ky., April 26—The Eastern Kentucky division of the Fourth Federal Reserve district last night passed the four million mark in the Victory Loan campaign with a total subscription of \$4,071,950. This does not include reports from sixteen counties in the district and their subscriptions are expected to swell the aggregate considerably.

Several counties were Friday unofficially reported as having reached quotas, but McCreary, Bourbon and Lee are the only ones officially credited as having gone "Over the Top."

Fayette county's subscriptions were reported last night at \$1,131,550, the largest total in the district.

Bourbon ranks second with \$721,050, more than \$200,000 in excess of her quota.

The largest subscription reported to local loan headquarters was one for \$50,000 by the Thorobred Record.

Official subscriptions in forty of the fifty-six counties in the eastern part of the State were reported as follows:

Bath, \$111,350; Bell, \$58,250; Boone, \$42,055; Bourbon, \$59,750; Clark, \$311,000; Clay, \$2,300; Elliott, \$1,400; Garrard, \$14,850; Grant, \$66,400; Greenup, \$80,600; Fynette, \$1,131,550; Harrison, \$188,200; Jessamine, \$52,800; Johnson, \$88,200; Kenton, \$247,900; Knox, \$2,000; Laurel, \$7,550; Letcher, \$61,700; Lewis, \$4,500; Lincoln, \$67,350; McCreary, \$11,850; Madison, \$33,900; Mason, \$80,200; Montgomery, \$164,150; Morgan, \$2,500; Nicholas, \$78,150; Pendleton, \$36,550; Perry, \$3,200; Pike, \$10,000; Pulaski, \$1,000; Rockcastle, \$2,500; Rowan, \$7,000; Scott, \$28,000; Whitley, \$200,000, and Woodford, \$150,200.

NO MOVIES NEXT WEEK

Because the Rubin & Cherry shows will be held forth at the baseball park in the East end all of next week, there will be no shows at any of the three moving picture houses during the week and the week will be used for a general housecleaning.

Mayor Thomas M. Russell and wife returned Friday night from Cincinnati where they have spent several days.

lower than the high point of last season it should be active provided shipping facilities have recovered enabling tobacco to move forward to market with rapidity. Foreign investigators feel that if shipping has reached normal by from August to October there should be a recovery of about five cents per pound average on all grades of tobacco raised in this country, and that the outlook for next year's crop is satisfactory if production is not increased beyond what presently appears to be the intention of tobacco planters.

Of the total tobacco produced in the United States in 1918 Kentucky produced 31.9 per cent., North Carolina 21 per cent., Virginia 10.9 per cent., Ohio 8.5 per cent., and Wisconsin 4.9 per cent. These five states produced 77.2 per cent. of the total tobacco crop in 1918, 79.3 per cent. in 1917 and 79.6 per cent. in 1916.

NICHOLAS WANTS ROAD CALLED FEDERAL PIKE

Plan Under Consideration to Repair Lexington-Maysville Highway.

Carlisle, Ky., April 26—A movement is on foot to have the Maysville and Lexington turnpike designated as a Federal Aid turnpike. This road extends through Nicholas county a distance of fifteen miles and was recently rebuilt by Nicholas county at a cost of \$50,000.

The plan now under consideration is to have the pike repaired, the federal government contributing fifty per cent. the state highway department ten per cent., and remaining forty per cent. to be paid by Nicholas county.

The road passes through Fayette, Bourbon, Nicholas, Fleming and Mason counties.

Fayette and Bourbon counties have already signified their willingness of this pike. The Nicholas fiscal court which was in session today indicated its willingness to accept the proposition.

It is highly probable that the plan will be accepted by all counties. The period of reconstruction covers three years, the road will be rebuilt in sections, taking three years to complete the road in the county. The plan calls for resurfacing the road with asphalt.

Mr. Ross of the State Highway Department was in Carlisle today and placed the matter before the Nicholas county fiscal court.

SHERMAN ARN

No. 8 East Second Street.

MAYSVILLE, KY.

Don't Start Anything You Can't Finish!

YOU AGREE WITH THAT SENTIMENT WE'RE SURE: AND YOU ALSO AGREE WITH THE ADDED IDEA—"DON'T LEAVE UNFINISHED ANYTHING YOU START." THAT'S WHERE THE NATION IS TODAY—WE HAD TO START SOMETHING AND NOW WE'VE GOT TO FINISH IT. THE FIGHTINGS OVER BUT PAYING THE BILLS ISN'T. WE'VE GOT TO FINISH THE JOB. BUY THE NEW VICTORY LIBERTY BONDS.

Squires-Brady Co.

Second and Market Streets

The Home of Hart, Schaffner and Marx Clothes.

BUY VICTORY LIBERTY BONDS

To fail now would be foolish. Let us finish right. Good investment and patriotic duty. We will be glad to help you.
